Water 2050: Visions

Water will be the fundamental factor shaping economic growth in the decades up to 2050. But it starts now.

The IPCC's 2014 assessment showed the effects of climate change are already hitting us through the water cycle. From our point of view at GWI, this means that, if we have any hope of adapting to these changes, it will have to involve a profound turn around in how we manage our water resources.

By 2050 our collective water challenge will be unlike anything the world has ever seen and it will run right across the entire supply chain from depleted ground sources through compromised consumer and business operations to wastewater treatment and reuse on an unprecedented scale.

It will also generate extraordinary opportunities for those with the right technology, partnership and financial solutions.

How the Global Water Summit will address these issues

The Global Water Summit 2016 in Abu Dhabi is going to break new ground for the sustainability of water as a source of business and economic growth. We will bring together our distinct community: the people who lead the businesses that supply and use water and the stakeholders whose decisions influence the way those businesses are run.

Utility leaders, government ministers, CEOs of corporations and their customers need to come to terms with this basic fact of life: that the state of water in 2050 is going to depend on what we do to make the world of water better – now.

They'll be doing that at the Global Water Summit 2016.

Join us for the Global Water Summit 2016 on 19-20 April at the Jumeirah Etihad Towers in Abu Dhabi.

We will be asking you to imagine what the world of water will look like in 2050. What will we be leaving behind for the next generation?
GLOBAL WATER SUMMIT 2016

NEED TO KNOW

DAY 1 • 19TH APRIL 2016

MORNING

Opening Plenary — Water 2050 visions
Roundtables — 35 Roundtables; four rotations
One-to-One Networking Meetings

DESLINATION | INDUSTRY | FINANCE | INNOVATION

Renewables in Desal: Electrons versus Photons
Municipal Wastewater for Industrial Reuse
Risk Management in Project Finance: Part 1
The Secrets of the Super Innovators

Water Technology Idol 2016: Presentations and Voting
Water for Growth Award
Risk Management in Project Finance: Part 2
Creating a Global Network for Innovation

AFTERNOON

One-to-One Networking Meetings

The Global Water Awards — Evening Gala Dinner

AGENDA AT A GLANCE

DAY 2 • 20TH APRIL 2016

MORNING

Opening Plenary — Water and climate change adaptation
Roundtables — 20 Roundtables; three rotations

1 DESLINATION | 2 INDUSTRY | 3 UTILITIES | 4 OIL & GAS

The New Economics of Desalination
New Propositions for Industrial Water Outsourcing
The Deep Tunnel Sewerage Super Highway
Oilfield Water Treatment at Below $40

5 WATER ACCESS | 6 GLOBAL MARKETS | 7 PRIVATISATION

A New Model for Water Access
Accessing Global Growth Markets
Restructuring the Saudi Water Sector

AFTERNOON

One-to-One Networking Meetings

Panel Session: China Reaches Out

Closing Plenary: Shaping the Future of the Water Industry

PRICES

FULL PRICE DELEGATE £1,695 / $2,970
IDA MEMBER DISCOUNT £100 / $175 off
NON-PROFIT DISCOUNT Up to 50% off
TEAM DISCOUNT ‘5 for 4’

THE VENUE: Jumeirah at Etihad Towers,
Abu Dhabi, UAE

Rising majestically from its beachside setting, Jumeirah at Etihad Towers’ dramatic sculptural form and spectacular design has set a new standard for luxury hotels and affords some of the most stunning views of the Abu Dhabi skyline.

BOOK YOUR HOTEL ROOM

Once you’ve purchased your delegate place, you can book your accommodation using our specially reduced delegate booking rate of AED750 per room/night.

Click here to book at this specially discounted rate
WHO ATTENDS THE GLOBAL WATER SUMMIT

From utility leaders and senior executives from across the global water industry to pivotal corporate water users and investors - this event offers unrivalled networking and business opportunities but also a forum for interaction and accelerating positive change within the sector.

KEY GROUPS OF ATTENDEES INCLUDE:

» Technology Providers
» NGOs and NFPOs
» EPC Contractors
» Developers
» Academia and Training Suppliers
» Utilities
» Finance — Bankers and Lenders
» Federal, State and Local Government
» Equipment Suppliers
» Legal Firms and Consultants
» Engineers
» Associations and Organisations
» Infrastructure Suppliers
» Plant Operators
» Water Companies
» Water Resources
» Central Services — Billing Systems
» Government Department of Trade and Environment — Ministers and Senior Officials
» Press

"GWS has its unique convening power to gather utilities and industry leaders. Good place to meet partners and keep abreast of industry trends."

XUEYI LIAO, INDUSTRY DEVELOPMENT EXECUTIVE, PUB SINGAPORE

<th>Event</th>
</tr>
</thead>
<tbody>
<tr>
<td>08:30 - 09:30</td>
<td>One-to-One Networking Meetings&lt;br&gt;Your facility to booking key appointments during the Global Water Summit&lt;br&gt;Meet the people you want to meet using our One-to-One networking facility. No more missed opportunities. You arrange it all beforehand and we make it happen. As a registered delegate to the Global Water Summit, you will be able to upload your professional profile, see the list of registered delegates and send requests for structured One-to-One appointments with your target delegates. The One-to-One Networking Meetings booking facility will go live following the close of Early Bird Registration.</td>
</tr>
<tr>
<td>09:30 - 12:45</td>
<td>Opening Plenary&lt;br&gt;Water 2050 visions&lt;br&gt;What is the long term future for the water industry? Everyone needs water, and with 3 billion more of us on this planet by 2050, those needs - and the impact they have on the environment in the context of climate change - are are growing inexorably. The challenge for us today is that we are not well equipped for this inevitable future. We don’t have the financial models, the infrastructure or the technologies which will make that future possible.&lt;br&gt;&lt;br&gt;In the opening plenary of the 2016 Global Water Summit we are challenging our speakers to outline their vision of water in 2050. What will it look like? How will it work? How do we get there from here?&lt;br&gt;&lt;br&gt;<strong>Confirmed Speakers:</strong>&lt;br&gt;Junaid Ahmed, Senior Director, Water, Water Global Practice (GP), World Bank&lt;br&gt;Marie van der Hoeven, former Executive Director of the IEA (retires 31 August 2015)&lt;br&gt;Nitin Paranjpe, Head of Home Care, Unilever&lt;br&gt;Benedito Brago, State Minister for Sanitation and Water Resources, São Paulo; Chairman of SABESP</td>

</thead>
<tbody>
<tr>
<td>14:30 - 15:45</td>
<td>The Secrets of the Super Innovators</td>
<td>A handful of super innovators are shaping the future of the global water utility sector. Who are they and how do they do it?</td>
</tr>
</tbody>
</table>

#### Schedule

**14:30 - 15:45**

- **Strands**
  - Renewals in Desal: Electrons versus Photons
  - Risk Management in Project Finance: Part 1
  - Municipal Wastewater for Industrial Reuse
  - The Secrets of the Super Innovators

**15:45 - 16:15**

- Coffee Break

**16:15 - 17:30**

- Water Technology Idol 2016: Presentations and Voting
  - Chair: Tom Pankratz, WDR Editor, GWI

**17:30 - 18:00**

- One-to-One Networking Meetings

**18:00 - 22:30**

- The Global Water Awards • Ceremony and Gala Dinner, Emirate Palace, Abu Dhabi
  - Sponsored by EVOQUA WATER TECHNOLOGIES
## Opening Plenary

### Water and climate change adaptation

Historically water investment has followed economic growth. In these circumstances new infrastructure is not only needed, but it pays for itself. Climate change breaks this connection. It creates a world in which we must prepare for both extremes of floods and droughts with no additional income streams to meet the cost. In this session we bring together ministerial level speakers from across the world to discuss how to meet this challenge and how international cooperation might play a role in the solution.

Chair: Roger Harrabin, Environment Analyst, BBC News

### CONFIRMED SPEAKERS:
- HE E. Dr. Hazim Al-Naser, Minister for Water and Irrigation, Jordan
- Jeff Kightlinger, General Manager, the Metropolitan Water District of Southern California
- Manuel Pulgar-Vidal, Minister of State for the Environment and President of COP20/CMP10

### 09:45 - 09:50

**Short Break**

### 09:50 - 10:00

**Roundtables**

20 Roundtables; three rotations — For a full list of speakers and topics, visit: [www.watermeetsmoney.com](http://www.watermeetsmoney.com)

Choose a topic and join the table. Meet the host and table guests. Then participate in an intimate, face-to-face exchange of ideas. After three table rotations you’ll leave the session with a new set of contacts, a meeting set up for later that day and the next step towards your next deal.

### 11:00 - 11:30

**Coffee Break**

### 11:30 - 13:00

**Workshops**

| **14:00 - 15:00** | **One-to-One Networking Meetings** |
| ![China reaches out](image) | **China reaches out** |
| What will happen as China's billion dollar water companies turn to the international market? | Six of the biggest players in the Chinese water market outline how they are approaching the global market and the partnerships they are looking to develop. |

| **15:00 - 16:00** | **Closing Plenary** |
| ![Closing Plenary](image) | **Shaping the future of the water industry** |
| How do the leaders of the global water industry map out the future? |

---

**WATER LEADERS EVENTS & PUBLISHING PARTNERS**

The Global Water Leaders Group is a CEO-level non-profit organisation with the mission to create a better story for water by bringing together leaders from the water sector – utility directors, water ministers, mayors, regulators – to focus on the world’s water challenges. You can find out more about the Group at [www.globalwaterleaders.org](http://www.globalwaterleaders.org).

If you would like to become a Partner of the Group, contact the Secretary General of the Group, Samantha Yates at sy@globalwaterleaders.org, for more information.

---

For a detailed agenda and full list of speakers, visit the **GWS website**.
YOUR SUMMIT JOURNEY
Promising a return on your investment

BEFORE

Pre-Arrange Meetings on the GWS Mobile App:
Whether you want to maintain existing relationships or build new ones, the app allows you to coordinate your meetings months in advance.

Immediate Visibility:
From the moment you register, other delegates will be able to find you on our conference app. Prove your business is a proactive leader and part of a force for positive change in the sector.

Integrate the Summit into Your Business Development Plan:
Our app allows you to match with other delegates with the same interests, so you can identify and plan meetings with potential partners and customers.

Keep an Eye on the Developing Agenda:
Identify the most important sessions for your business and plan your activities before the event, so you can align the summit agenda with your business objectives.

DURING THE CONFERENCE

One-to-One Networking and Mind Sharing Roundtables:
From breakfast and lunch networking to dedicated sessions, you will meet more high-level business contacts than at any other water conference.

Develop Your Profile:
Opportunities to participate and give feedback are built into every session, so you can stand out from the crowd and be seen as a thought-leader in front of a captive audience.

A Business-Focused Conference:
The summit attracts the whole supply chain so you can be sure to meet the best contacts for you, whatever your expertise or service provision.

Plan Your Business Strategy for 2016/2017:
Keep abreast of new technologies, innovations, plants and projects – so you can predict the direction of the market and position your business to take advantage of new trends.

AFTER

Maintain Your New Connections:
Peer-to-peer messaging post-conference allows you to follow up with your new contacts and make a note of those all important details.

Improved Brand Visibility:
Attending a prestigious event like GWS 2016 with potential clients in both the private and public sector will offer your brand long-term recognition amongst high-level business leaders.

Leveraged Lead Generation:
As an attendee, you will be able to access a list of delegates – giving you a chance to reach out to those business contacts you may not have had a chance to meet.

Access Presentations and Conference Material:
Download presentations and voting results from your most valuable sessions, so you have the resources to integrate new intelligence into your strategy.

THE CONFERENCE APP: Maximise the value of the Global Water Summit
The Global Water Summit App is designed to enhance your experience at the Summit.

Its functionality includes pre-conference networking; in-conference peer-to-peer messaging; full access to programmes; presentations and exhibitor information; plus interactive voting and other tools.

ADAM LOVELL, EXECUTIVE DIRECTOR, WATER SERVICES ASSOCIATION OF AUSTRALIA
Fantastic: excellent level of conversation, niche summit out of the ordinary.

ALEJANDRO GARZA, CEO, ATLATEC SA DE CV
Excellent opportunity to make new business and networking with decision makers.

HARALD KLEIVEN, VICE PRESIDENT OF BUSINESS DEVELOPMENT, CAMBI AS
This is one of the most important conferences to us since we have the chance to talk to and educate decision makers on a high level. Technology choice often makes a big difference and needs to be evaluated early in Master Plans, not solely by consultants and late in the design process.
GLOBAL WATER AWARDS 2016

ABOUT THE GLOBAL WATER AWARDS

Each year, the coveted Global Water Awards are presented at the Global Water Summit, the major business conference for the water industry worldwide. The Awards acknowledge the most important achievements in the international water industry within several categories.

2016 will see the Global Water Awards Gala Dinner take place in the opulent Emirates Palace in Abu Dhabi, UAE on Tuesday 19 April 2016 as part of the Global Water Summit. The event will be presented by Felipe Calderón, former President of Mexico (2006 - 2012) and Chairman of the Global Commission on the Economy and Climate.

Felipe Calderón is one of Latin America’s most distinguished leaders. He is internationally recognized as a President who strengthened the rule of law and made possible the economic recovery of Mexico after the world economic crisis. During his term he implemented public policies that projected Mexico as a powerful player in the global economy. He was named “Statesman of the Year” by the World Economic Forum, and considered one of the 100 most influential people by Time magazine.

Click here to view Felipe Calderón’s full profile

Nominations for the 2016 Global Water Awards are now closed. The shortlist will be announced and voting will open on 2nd March 2016

Established in 2006 by Global Water Intelligence, the Global Water Awards recognise and reward those initiatives in the water, wastewater and desalination sectors that are moving the industry forward through improved operating performance, innovative technology adoption and sustainable financial models.

PROVISIONAL CATEGORIES

» Water Company of the Year
» Desalination Company of the Year
» Public Water Agency of the Year
» Desalination Plant of the Year
» Water Reuse Project of the Year
» Industrial Water Project of the Year
» Desalination Deal of the Year
» Water Deal of the Year
» Water Technology Company of the Year
» Water Performance Initiative of the Year
» Water/Wastewater Project of the Year
» Water Leaders’ Award
» Corporate Water Stewardship Award
» Water Technology Award
