# WATER FORWARD

Uzbekistan Water Compact

2026 - 2030

*Securing Water for People – Food - Planet*

# Main mission of Water Compact

Improving access to safe drinking water and sanitation

Modernizing irrigation infrastructure

Increasing efficiency of water and energy use

Enhancing climate adaptation measures

Mobilizing public and private investments

Developing Uzbekistan's digital water management

# Irrigation Modernization

**1.7 M ha**

*equipped with water-saving technologies*

**10 900 km**

*major & main canals modernized*

**26 400 km**

*open collector-drainage networks*

**17 900 km**

*closed collector-drainage networks*

**324**

*pumping stations modernized*

**200,000**

*water intake points of farms digitalized*

*315M m<sup>3</sup> — additional water storage created*

# Drinking Water & Sewerage Services

21,500 km

water supply networks  
built/reconstructed

10,000 km

sewerage networks  
built/reconstructed

671

*pumping stations constructed*

5,500

*water sector professionals trained*

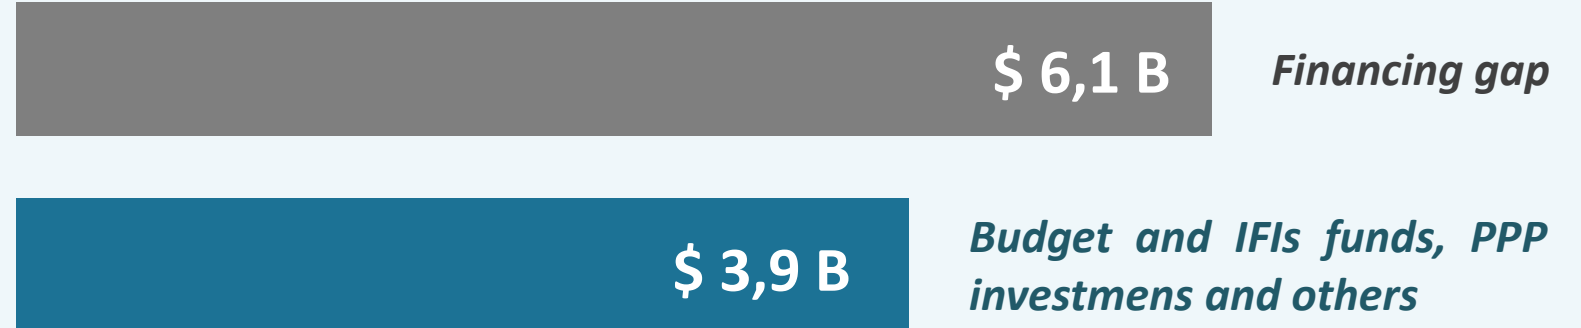

# Financing program

TOTAL  
INVESTMENT

USD 10 billion

2026-2030

**World Bank**

**\$ 500 million**  
additionally will be mobilized

# Target Outcomes by 2030

## Water Security & Access

**90%** sustainable **drinking water** access  
**27.1%** **sewerage** coverage

## Irrigation & Agriculture

**2.2M** people with **improved** irrigation  
**1.7M** ha **water-saving** technologies

## Efficiency & Digitalization

*Water-saving technologies in agricultural areas  
from **60 %** → to **100%***  
***100%** water meter coverage of all consumers*

## Energy & Climate

*Pumping energy reduced from 6.5 kWh/yr → 6B kWh/yr*  
*96% early warning system coverage*

# People Secured 2026–2030

## Water for People

---

**750,000**

*people secured*

*Safe drinking water and &  
sanitation access*

## Water for Food

---

**2,200,000**

*people secured*

*Improved irrigation services  
for agriculture*

## Water for Planet

---

**850,000**

*people secured*

*Climate adaptation &  
Ecosystem protection*

*Total 3.8 million people water-secured by 2030*

**Thank you for attention**
